

FOUR HANDS ON ME

I saw you at the doorway
Boots by the mat, all rain on your sleeve
You laughed like you knew me
Like you had a plan for the rest of the week

I said, "You coming in?"
You said, "Maybe if you make me stay"
Now the whole room's leaning
Like it knows what happens when you say my name

We keep missing the moment
Then it comes back around
Hands in the air like a warning
We don't slow it down

One look, and I'm falling
One touch, and I'm gone
Tell me you're all in
Tell me I'm not wrong

Four hands on me
Four hands on me
Pull me right back
Hold me up high
Four hands on me
Four hands on me
(I need that)
Don't let me slide

You left your jacket on my chair
Coffee ring on the old notebook page
I kept it like a secret
Like a proof that the night never changed

Then you texted, "Where you at?"
I said, "Same place, same bad plan"
You came through with a slow grin
And the whole world fit in your hand

We keep missing the moment
Then it comes back around
Hearts on the edge of the edge of it
And we jump anyway now

One look, and I'm falling
One touch, and I'm gone
Tell me you're all in
Tell me I'm not wrong

Four hands on me
Four hands on me
Pull me right back
Hold me up high
Four hands on me
Four hands on me
(I need that)
Don't let me slide

If the floor drops out
You won't let go
If the room goes dark
I already know
You'll be the spark
I'll be the fire
Four hands, one night
We keep going higher

Four hands on me
Four hands on me
Pull me right back
Hold me up high
Four hands on me
Four hands on me
(Stay with me)
Don't let me slide
Four hands on me
Four hands on me
(Stay with me)
Hold me all night
